<p>This uses a special rat control treatment with the use of baits, granules, sticky pads, rat cakes & cages. We inspect the entire area thoroughly for the rodent entry points and advise you to limit them. We then proceed to do the treatment using glue pads, electronic rat catcher machines, cages depending on the situations for closed areas along with bait stations, granules, rat cakes, bait stations for open areas again depending on the situations. Rodent treatments are annual contracts which include a treatment every quarter.</p>
